(54) BULLDOZER'S FLOOR FRAME AND ROPS CAB FOR BULLDOZER EQUIPPED WITH THE FLOOR FRAME

(57)Abstract:

PROBLEM TO BE SOLVED: To provide a bulldozer's floor frame and a ROPS cab equipped with the floor frame which can be used for common use by making the bulldozer's floor frame at the car body side switchable to a location at the ROPS cab side.

SOLUTION: Bolt holes (26, 27, 31) (28, 29, 31) which permit selective add-on attaching to the car body side and the ROPS cab side (10) are provided at the cab floor frame (18) and driver's foot floor frame (19) constituting bulldozer's exterior finishes, and the positions of one kind of floor frames (18 and 19) are made shiftable to the car body side and the ROPS driving room (10) side and made possible for common use. The one kind of floor frames (18 and 19) are divided into a floor frame (19) for putting driver's feet and a driver's cab floor frame (18) having a plate surrounding driver's seat (24) and right and left tank cover plates (22 and 23) as one united body, and the cab floor frame (18) is provided with the feet floor laps attaching positions (25) and the cab floor frame (18) and the feet floor frame (19) are installed as one united body.
